

Photography Courses (for Snorkelers)

Underwater photography is one of the most popular diving specialties, and the rise of digital underwater photography has made it easier and more fun than ever. The PADI Digital Underwater Photographer course gets you going quickly with today modern digital equipment, whether you use a point-and-shoot snap camera or a sophisticated D-SLR like the pros.

The fun part about this course is learning to capture images to share with your friends and family. It's a great way to relive the adventures you've had.

What You Learn

- How to choose the right underwater camera system for you
- The PADI SEA method for getting great shots quickly
- The three primary principles for good underwater photos

Topics covered include

- Basic photography tips
- Strobe diagrams for a variety of effects
- Tips for eliminating backscatter
- An explanation of the various digital file formats
- How to bring back the color in your images

Prerequisites

- Have your own waterproof camera or ask the CDA centre on how you can hire one.
